

## Testwell CTC++ Test Coverage Analyser

Testwell CTC++ is the leading Code Coverage Tool for measuring Code Coverage/Test Coverage on host and all embedded targets (even very small ones). Hundreds of companies all over the world use Testwell CTC++ with great success. Testwell CTC++ is the first choice for companies which have to achieve and to proof high code coverage in aerospace, automotive, transportation, healthcare and other industries which wants to develop high quality software. The tool has been developed since 1989 in Finland and since 2013 by Verifysoft Technology GmbH, Germany.

### Benefits:

- Analyses for all coverage levels up to MC/DC and Multicondition Coverage
- Works with all compilers /cross-compilers
- Broad platform support (Windows, Linux, Solaris, HP-UX, OS X, AIX, other on request)
- Support of all embedded targets and microcontrollers (one license covers all)
- Supports C, C++, Java and C#
- Very easy to use (Live webinars, inhouse and public trainings and registered webinars available)
- Professional support for customers with maintenance (email, phone, and even onsite if necessary)
- Qualified for safety critical development (compliant with safety standards like DO-178C, ISO 26262, IEC 60880, IEC 61508, EN 50128, ...)  
-> Qualification Kit available
- Integration in many IDEs  
(c.f. [http://www.verifysoft.com/en\\_ctcpp\\_ide\\_integrations.html](http://www.verifysoft.com/en_ctcpp_ide_integrations.html) )
- Integration in many tool chains and testing environments  
(c.f. [http://www.verifysoft.com/en\\_ctcpp\\_integrations.html](http://www.verifysoft.com/en_ctcpp_integrations.html) )
- Works with almost all unit testing tools
- Clear and meaningful reports (text, XML, HTML hierarchical with 4 levels – Execution Profile Listing, Execution Time Listing, Untested Code Listing)
- Proven customer success  
(c.f. [http://www.verifysoft.com/en\\_testwell\\_user\\_testimonials.html](http://www.verifysoft.com/en_testwell_user_testimonials.html) )
- Thousands of licenses successfully in use with hundreds of customers in 30+ countries
